

Communicate

Reliable, simple and 100% automated solutions to communicate anywhere, anytime and bring you closer to your customers.

An ecosystem that allies communication with simplicity

With flexible, plug & play, automated and integrated solutions, you control your entire telephony **independently**.

You can personalise all your options **in real time** by accessing the following options to a **unique business tool** that brings together all of our services. Because the only good way to communicate is to do it simply.

Your communications, our solutions

Simplify your daily life with voice solutions
and unified communications designed by expert teams.

Communication that listens to users

UNIFY YOUR COMMUNICATIONS

With Sewan's **unified communication solutions**, you win in efficiency. Whether it's on your fixed phone, your PC or your mobile, your telephony, your e-mails, your instant messaging and many other services are accessible to you in a simple way. Discover our **Plug & Play** solutions based on on **Teams** (Microsoft) or on **Dialog** (Cisco).

MOBILITY REINVENTED

Sewan reinvents mobile telephony thanks to a **white label interface** that is totally modular. Call forwarding, number presentation, Text-to-speech transcripts of voicemail messages... Manage your mobile telephony as simply as your hosted telephony, without any third party application. And in order to offer you the best services, we combine this offer with the **best Belgium mobile network** to provide the most innovative offer on the market.

VALUE ADDED TRUNK SOLUTIONS

Compatible with all major PABX brands and also now with **Teams** (Microsoft), Sewan's trunk solutions are integrated with your environment by giving you the benefit of of a **100% stable network**. Offers include, among other things, call forwarding and automatic back-up solutions, the management of emergency numbers or automatic invoicing in a multi-site environment.
